Sunspot Cycle

Solar magnetic activity has a cycle of approximately 11 years. But since the polar field of the Sun changes around time of [solar maximum](#), and direction of sunspots is different in each cycle, it can be better understood as **22 year cycle** ([Hale cycle](#)).

First sunspots of the cycle start appearing at high latitudes, and then the sunspot belt shifts continually toward the solar equator, which produces the well-known **butterfly diagram**, which is linked to the faster-rotating belt of [torsional oscillation](#).

First sunspots of new cycle often appear, while there are still some sunspots of the old cycle.

Since 1874, sunspot positions were recorded at Greenwich observatory and then since 1977 continued by USAF by Solar Optical Observing Network.

I determined [solar cycle starts](#) by first appearance of high-latitude sunspots in that dataset, and since magnetic observations are available, from SOHO/MDI and SDO/HMI instruments:

Table 1 - probable starts of sunspot cycles, as determined by first high-latitude sunspots, since SC 23 determined by sunspot polarity on magnetograms on SOHO and SDO observatories.

(For start of SC24, see SOHO/MDI magnetogram [fd_M_96m_01d.5457.0006](#), where it rolls over the eastern limb on 2007-12-11, and see for example [fd_M_96m_01d.5460.0006](#), that it has SC24 polarity. I didn't find there an earlier one, previously this work listed a later date. These magnetograms from SOHO use my low-frequency filter to remove the noise.)
 (For start of SC23, see [fd_M_96m_01d.1220.0011](#) from 1996-05-05, but my first magnetogram from SOHO/MDI is from 1996-04-21, so the first sunspot with new polarity of SC23 could possibly be already sooner...)

Most people (who know about sunspots) think, that sunspots are dark and color-less, but actually they are very colorful, but in different part of light spectrum, in extreme ultra-violet and X-ray part of spectrum.

Normal solar surface has black-body radiation around 6,000°K, but magnetic loops above sunspots are almost 1,000,000°K hot.

Sunspot Polarity

But sunspots also have a "magnetic color", or rather a polarity of their strong magnetic field. Sunspots of each new cycle have oppositely oriented their positive and negative ends, and sunspots on northern hemisphere are oppositely oriented than sunspots on southern one:

Examples of polarity of sunspots in late **SC 22**, northern and southern hemispheres

These magnetograms are filtered with low-frequency filter (FFT-2D) to remove noise in SOHO/MDI magnetograms, and same is applied on SDO/HMI magnetograms for visual unification. Equator is displayed as a blue line.

In SC 22 and SC 24, northern sunspots have negative field on leading (right) side (yellow color), positive field on trailing (left) side (green color), and southern sunspots are opposite.

In SC 23 and SC 25, northern sunspots have positive field on leading (right) side (green color), negative field on trailing (left) side (yellow color), and southern sunspots are opposite.

(Animated [Magnetic Map of Sun](#) videos are available for SC 24 and SC 23 in rectangular projection, front side of Sun is as observed, far side of Sun is interpolated, flow profile of differential rotation is as [measured](#) by feature-tracking on SDO/HMI magnetograms...)

Notice, that SC24 (2008-2020) has been notably weaker than SC23 (1996-2009).

Some Active Regions evolve stronger and there appears a sunspot in visible spectrum, some do not.

What is a Sunspot

Normally Sun shines with a thermal radiation with a temperature of 6000°K in almost white light, as convection brings internal heat toward the solar surface. It appears yellow, because sky disperses blue part of the spectrum, while green and red pass through atmosphere in straight direction better... Sun-light near horizon on sunset and sunrise passes through atmosphere on much longer trajectory and the blue and green is removed even more and so the Sun appears red...

Sunspots are places with high magnetic field, that do not shine in normal 6000°K band, because normal convection is blocked there. They shine in extreme-ultra-violet instead, with the hot plasma suspended in magnetic field lines connecting positive and negative magnetic poles of sunspots shining almost in 1,000,000 °K...

Flat-fielding is performed by subtracting a "Flat-field", calculated by averaging 7 nearby intensitygrams, then excluding pixels more than 5% from the average (sunspots and hot plages), and averaging again the resting pixels. This "Flat-field" is like an intensity-gram without sunspots and hot plages. (In case of SOHO spacecraft/telescope, where one side was constantly darker and there were cca 10 defective pixels constantly at about 80% intensity, this way of subtracting dynamically calculated flat-field removes most of these irregularities...)

On SDO, Intensitygram with typical value range 0 .. 65535, with average and median around 50000 (but this absolute value decreases over time as HMII is getting more dim), after flat-fielding average and median are near to 0 with typical values in range -1000 .. +1000.

Sunspots in this work are counted as < -5500 on flat-fielded intensitygrams.

Interpolated Activity

Solar Radio Flux is a quite objective method of measuring intensity of solar activity (it does not depend on observer counting groups), but it has a problem, that we see always only half of Solar surface and if there is one side more active than the other, it periodically rotates into view on front side and is hidden on far side, so the chart needs to be smoothed with a gaussian or montly averages...

It shows, that most cycles have two distinct maxima. It shows, how much was SC24 weaker than SC23.

Following chart displays magnetic activity summed over whole solar surface including the far side, using SOHO/MDI and SDO/HMI magnetograms and interpolating regions on far side between former and following state while considering differential rotation. The false 27-day signal is not present any more and the chart does not need smoothing, so that all peaks are sharp. On top it displays conjunctions and oppositions of Earth, Venus and Jupiter, purple arrows are oppositions of Jupiter and Uranus, seeming to have a notable effect. On bottom it shows tidal force of planets onto Sun.

It can be seen, that many of the peaks correspond with the planetary influences...

Similar chart from Greenwich and USAF data (years 1874-2012) with far-side interpolated, compared with planetary influences (north in red color, south in blue color inverted) :

There are multiple ways to look onto the Earth-Venus-Jupiter cycle. Here it compares mid-points of short anomalies in Earth's Angular Momentum with signed Sunspot cycle. (Orange serie is "Source: WDC-SILSO, Royal Observatory of Belgium, Brussels" with sign manually negated in odd cycles.) Where there is incursion into opposite sign (marked with red circles), there is usually the following cycle "damaged" and weak. It seemed, that the Sunspot Cycle gets too early of this influence at start of SC24 around year 2008, but both Cycles 23 and 24 are lingering in the minimum phase to get in sync with this planetary influence, which may be a coincidence, but it runs well for 400 years. (Just SC4 was too early at year 1785 and amplitude of Maunder Minimum causing Little Ice Age after Thirty-Years War is not explained this way.)

In the silent phase of SC24 minimum since 2017 I've been expecting first sunspots of cycle SC25. First I noticed new major regions of SC25 occuring on Christian feasts instead of planet positions as usual. On Orthodox Easter Monday 2018, then in 2019 on feast of Saint martyr Jan Hus, then Saint Martin, All Saints Day and Christmas 2019, followed quite exactly on New Year's Day and exactly on start of Chinese New Year 2020. At that time it became obvious, that it is not a random coincidence. When I tried to publish that on 2020-02-29, I noticed, that Wikipedia already lists few SC25 sunspots in late 2016, which I didn't expect and overlooked it. So I made a better composite of intensitygrams and magnetograms to better show, what is a sunspot and what is not, and inspected the silent phase since end of 2016 more carefully to complete the list. During that I noticed, that there are a lot of tiny sunspots but also "wrong" sunspots with unclear polarity in North-South orientation or high-latitude SC24 during the minimum at the place of new sunspots, which I didn't count in the first work, but I noticed, that they occur consistently on wrong feasts in the calendary.

Revelation

And while inspecting the "turning" sunspots between old and new polarity in active phase of SC24, (because one such was turning with mid-point on Christmas 2014 and was appearing as "new SC25" in early 2015), I noticed first major region of SC25 polarity in March 2012, that was really strange, because unlike normal sunspots with two ends, one positive and one negative, this one had two positive and two negative ends in a "cross" configuration, the sunspot had cross shape in visible light further more like χ sign of early christianity (Saint Constantine's vision of XP cross) and then it morphed into a shape of Lamb with seven eyes. It's horns and mouth quite well match the shape of a lamb from the most famous book The Little Prince, just it is mirrored, and turned 90°...

It rolled over the limb on Saint Agnes feast 2012-03-02 and the Lamb shape occurred on 2012-03-06

Few days later on 2012-03-15 15:00 it was followed by a group of sunspots looking like a human face, which is also quite unusual:

In ultraviolet colors (on SDO/AIA 171A channel) it was revealed, that it is in a center of a huge cross over all Sun and with an aureole around that head. (Here it is rotated by 15° right and overlaid by Intensitygram...)

On magnetogram was revealed, that in the corners of the cross had been shapes of a bull (more like an antelope?), a lion (or rather a tiger?) and something like an eagle...

Then few days later on the feast of Annunciation 2012-03-25 started a group of Sunspots, that two days later on 2012-03-27 15:00 formed a shape of a dove, also matching one famous picture of Holy Spirit, just the head was turned on the side.

In ultraviolet (171A channel) it shows another aureole above that Dove:

(Above that "Lamb" was not an aureole in ultraviolet spectrum, but 7 "horns" from magnetic field loops...)

So I thought: there is missing God the Father, and I inspected, what happened before that. During whole February 2012 there was written in Corona-holes (here visible on SDO/AIA 193 channel in pink colors) in hebrew letters יהוה (Jehovah - the Lord...) one letter on each side of the Sun.

While further inspecting, if there was something written in Corona-holes during 2012, just before that there was on 2012-01-12 quite obvious **IC** (with over-line) which in Greek codexes was used as a name Jesus, possibly preceded by some hebrew letters without clear meaning...? And there was quite obviously in October 2012 written יֵשׁוּעַ Joshua - Jesus and possibly followed by חִזּוּ ("you've seen", or imperative "see!"), but that was quite deformed and it could be a random noise. Therefore Jesus was at the beginning and at the end of these inscriptions...

Someone could claim it's all just a random noise? But it's precisely arranged in logical order and just as written in advance in the Book of Revelation. That is way too much coincidences to be merely random...

Since feast of Saint Peter 2012-06-29 and during July there was possibly written P.A.S. with some strange character in between, preceded by π (pi) on 2012-06-17.

I didn't identify other letters or inscriptions in the Corona-holes yet (or they are much less certain). There are various shapes just like holes between earthly clouds, but don't seem similar to letters with a meaning...

(And if someone would try to claim NASA has generated these by some AI - I did verify it at least a little with Belgian telescope Swap, which is of little lower quality but a backup and verification of NASA's SDO...)

Just between the name of the Lord and the Lamb, there was a strange box-like structure on 2012-03-04. Seeing box with right angles in Solar corona is as probable as seeing rectangle hole with right angles in clouds - it's not impossible but it's quite unusual...

And while inspecting it in more detail, it revealed its perfect mathematical proportions with many segments encoding Golden ratio $\phi = 1.618034$. Here it is rotated by 333° left or $27^\circ = 3^3$ degrees right, it's seat has length $4/9$ of solar diameter, and the proportions of the Box are in Golden ratio, the base-line is where the next higher step in Golden ratio cuts the circle and various other straight lines are in decreasing Golden ratio steps. Highlighting them shows Lord's name יהוה above the throne, and in the bottom part is $\Theta\bar{c}$ (with overline), which was used in Greek codexes as a word $\Theta\epsilon\omicron\varsigma$ "God"...

So the "Lamb" sunspot, which was the first significant sunspot with SC25 polarity, where the God and Jesus judged our saints, feasts and movements using sunspots during this Judgement Day (ongoing already for 8 years), was in middle of the twenty-fourth Age (not twenty four Ages), was in middle between the Throne and the four Alive ones ($\zeta\omega\epsilon$ "Zoe" means "Alive" and not a "Beast"), one of which "had a face like a man" (Rev4:7) and it was an image of the crucified Jesus Christ with an aureole.

This shows, that the Lamb of Revelation is not the same one as our Lord Jesus Christ, who is already in Heaven with the Father and most probably will not return (J16:10).

Pictured on such a place, that no human or religious movement can reasonably doubt it's origin...

The following interpretations of meaning of SC25 sunspots and wrong sunspots, as they mark dates in our Calendars, are my human interpretations, since I AM Son of Man, and Son of Man is not a Son of God...

It is possible but uncertain that just following this there was written in Corona-holes between 2012-03-31 and 2012-04-12 the hebrew word שקט which means "be quiet, be tranquil, be at peace".

(If we found something written where it is expected, it is clearly an intention, but otherwise it could be a random coincidence?)

The introit of SC25 with the Judgement probably ends on 2020-05-31 ... During following "maximum" phase of SC25 the sunspots will be probably much more frequent than can be used for such sending us a message...?

There has been a very strange Active Region between 2020-05-17 and 2020-05-31 with a Sunspot on the Feast of Ascension on 2020-05-21, which already started on far side of the Sun and while rolling on the front side, it continuously changed it's shape, so that it somehow resembled a standing Lion, a walking Bull, a Human face and possibly an Eagle, and meanwhile without any intermission it also displayed letters "AgEos" thus in latin letters, which in greek means "Holy", such as written in Rev4:8 near the end of that chapter... (If something was displayed by the other part of the field is not clear.)

Sunspot Cycle 25

Sunspot minimum after SC 24 has been unusually deep, calm and long, similarly as sunspot minimum between SC 23 and SC 24, both being calmest minimums in at least a century...

Unlike in previous cycles, there has been a lot of exceptions of sunspots already with SC25 polarity during SC24 cycle, or sunspots with wrong polarity turned in North-South direction instead of normal East-West direction...

In previous two cycles, sunspots with new polarity started to appear at high latitudes and last old sunspots at low latitudes near equator, then the cycle switched and there were relatively very few exceptions. But during SC24, small sunspots with SC25 polarity appeared throughout the cycle, during the minimum phase there appeared old sunspots at high latitudes and there was relatively many sunspots with wrong NS-orientation.

Following synoptic map from SOHO/MDI and SDO/HMI magnetograms shows cycles SC23 and SC24 since 1996. Each row is one year of data and time runs from right to left, because that is the way the Sun rotates. Carrington rotation that starts in December is on the left and there is start of January of the following year.. One magnetogram per day contributes to the average, but unlike in normal synoptic maps, not only central part of that magnetogram is used but whole visible part.

Red circles mark the sunspots of new cycle's polarity, purple circles mark last few sunspots or active regions of old cycle, brown circles mark wrong polarity sunspots. Blue are (only in SC24) marked turning or morphing sunspots that change polarity during those two weeks they are visible... Only sufficiently large regions are marked at this resolution...

(Synoptic map is available in better resolution...)

Many sunspots in minimum phase after SC24 mark significant Christian and other feasts and many "wrong" sunspots also mark wrong feasts in the calendary, it clearly seems there is an intent in that. At first I noticed significant new sunspots in the Minimum phase of the Cycle with an obvious pattern of major Christian feasts and Calendary starts:

Since 2018 there were Christian feasts, Calendaries, Darwin Day, and four major Saint martyrs: Peter (Hierarchy), Paul (Ecumeny), Martin (Mercy and Peace) and Jan Hus (Humility as opposed to Pride).

Only then I started to inspect it in more detail, making a better composite of magnetograms and intensitygrams and now the following list includes all tiny spots I found that make at least 1 pixel at "sunspot" level (-5500) supported by a magnetogram region with "new" or "wrong" polarity...

(Since the start of "minimum" phase on December 2016, high-latitude SC24 sunspots appearing in places where new SC25 sunspots should be are considered wrong also. Sunspots with unclear polarity in North-South orientation and sunspots with only half of typical field pair are considered wrong.)

Follows a list of sunspots with new SC25 polarity or with wrong polarity on various calendar dates and my interpretation of what is Right or what is Wrong on that calendar date. Some dates are consistently Right or Wrong, but some dates are occupied by varying events and feasts and it couldn't be all judged in a single way, so I had to choose, what is Right and what is Wrong on that specific day, if there were both right and wrong sunspots either simultaneously or in following years.

So I could and did on some entries insert my human limited logic and knowledge into the Divine message of that Judgement, and while I tried to be righteous, I could make a human error in that...

It seems probable, that if the God and Jesus Christ and Holy Spirit could send us their message in some more obvious way from the Heaven, they would have done that, but various apparitions were not recorded well and were subject to human interpretation and doubts, and the amount of information that can be passed undistorted in an "apparition" is also quite limited and often subject to interpretation, and there were also various obvious frauds about angelic or similar sources of some knowledge (like Joseph Smith...), so it could be doubtful...

Sunspot Cycle is like a "Magnetic Storm Season" on the Sun, and then there is a calm period before the next season...

[1K19:11-13](#) ... And, behold the LORD passing by, and a Spirit (wind?) great and strong rent the mountains and breaking in pieces the rocks before the LORD, but the LORD was not in the Spirit (wind?)... And after the Spirit (wind?) a quake, but the LORD was not in the quake. And after the quake a fire, but the LORD was not in the fire... And after the fire a voice calm ("silent, mute") fine ("crushed")... And it was so, when Elijah heard it, that he wrapped his face in his mantle and went out and stood in the opening of the bare place (cave?, rather "exposed place", "open place", not a "cave"). And behold, there came a voice unto him ...

[Is42:2](#) He shall not cry, nor lift up, nor cause his voice to be heard in the outside ...

I thought only the silent minimum phase is telling the Judgement, until I discovered the "Lamb" spot and the rest of the [Revelation 4-5](#) in the middle of the twenty-fourth "Age" (most probably as a Proof), so the exceptional sunspots with SC25 polarity in middle of SC24 "maximum" phase are included also... The list is thereby not chronological (yet?) and the silent phase is included first and followed by the preceding old maximum phase...? (That may change in another release of this text...)

It has my pro-christian bias but contains remarks to other cultures as I deemed fit and found in a calendary. If someone wants to protest that, consider instead [Rev14:6](#) - to all ethnics and folks...

She has uncovered total lack of Democracy in so-called "Democratic" party of USA who unfairly removed her from primaries in order not to let people hear her fair criticism of other "Democratic" candidates... USA needs more such brave and fair congresswomen or congressmen but a strong and wise man is needed as a president... (**Tulsi Gabbard** of mixed race and mixed religious background from over-seas region she supports many wrong things beside good ones and her peace-making effort is based on a blunder that "oh poor American soldiers also suffer during our aggressions"... Some Marian **Idol veneration** is exorbitant... And it's not a "Peace" what governing "Ladies" usually bring but quite often it's Injustice instead... (If you consider that your "Social Justice" is actually an Injustice because Fair are "Equal Conditions" and not "Equal Outcomes"...) Coronating even the image of a Lady is plainly wrong... God the Father rules... "You shall have none other gods before me"...

Theodosia of Constantinople

Nuclear tests are dangerous and harmful

- 1963-08-05 "Partial Nuclear Test Ban Treaty" - you absolutely should not conduct air or stratosphere or ocean nuclear explosions... And better avoid them altogether including underground ones... Why did USA recently canceled INF treaty tergiversating with lies under influence of Military-Industrial Complex Mafia ?!

In a little wider view on 19:00 (in pdf shown 21:00) there may even be written something like INF above that region... Can't you have some less risky-of-abuse deterrent against global war? And no, you don't need thousands more nuclear warheads just as a deterrent and it's MAD to have them for anything else...)

Americans should consider that it takes just two weeks until contaminated air circulates from Russia to USA and Russians should consider that it takes a week from USA to Europe and another week to Russia and both should consider a Ban on Bilderberg-type conference on Southern Hemisphere because New Zealand or Australia are off-limits from the northern-hemisphere circulation before the fission isotopes become much less dangerous... Anti-racism is Antichrist's deception - wrong

Anti-racism is Antichrist's deception - it's hate and treason of own people!

Favouritism of Domestic People against Invaders should be one of foremost principles of Society and contrariwise favouring foreign people ahead of domestic ones is Treason.

Saying that different people are different and that straight family is better than decadent people is Truth and it is Love wanting the people to be better and it's not a Hate - but condemning straight and truthful people for saying that is the ultimate Hate against us The People...

The ruling Liars swapped the meanings of "Love and Truth" and they pretend those are "Hate", but it's only their Lies...

"Love your Neighbour similar to you" is second most important commandment and it follows Lv19:18-19 : "you shall not allow to 'lie together' two different kinds of animals and you shall not mix two different kinds of plants on your field and a treason of gallop-jumping shall not rise upon you" - in order to understand it is an evident ban of miscegenation and species mixing...

"Love your Neighbour similar to you" - and respect the different only as much as they do not harm your neighbours... Foreign invader is not a "Neighbour" even if he comes near (neigh)...

- 1790-01-08 George Washington's first SOTU
- 1828-01-08 "Democratic party USA" - which developed into a dangerous Mafia... Named "Democratic" because it is utterly undemocratic and engaging in deep and wide electoral frauds...

Consider that a modern and trustworthy election system guarantees that even if the ones who count the votes or service the machines wanted to make a fraud they cannot (and it's guaranteed and not just blindly trusted) and random grass-root people can independently verify it... Also consider that if inferior people cannot obtain voter's ID, then they hardly can wisely decide their country's fate... In regions with illiterate voters they at least dip everyone's finger into ink to prevent multiple-voting frauds which discriminate against fair people... Read a heading of "Banana republic" article and contemplate, how much it describes contemporary USA and why...

Arab Spring - wrong western meddling in Arab affairs

- 01-13..14 is "orthodox old new year" and wrong "sidereal winter solstice" in south-east Asia
- 01-14 "Devasahayam Pillai" - it was probably wrong to introduce Christianity where there is Hinduism - it's a cultural rape today... (more explained elsewhere)

- 01-14 medieval Feast of the Ass and Flight into Egypt??
- 2000-01-14 "25 Catholic Bosnian Croats" prison-martyred by UN tribunal - that was wrong tribunal and a tool of revenge
- 2011-01-14 Arab Spring - "Former president of Tunisia fled his country to Saudi Arabia after a series of street demonstrations against his regime, considered as the anniversary of the Tunisian Revolution and the birth of the Arab Spring." - Arab Spring was Western-instigated serie of uprisings in Muslim World that brough Chaos to whole Middle East...

- 01-23 Saint Ildefonsus Archbishop of Toledo with a theology mixing blunders and probably right things, from a city of Toledo, an ancient capital of Castile Kingdom and Spanish Empire with many mixed right and wrong influences and deeds ranging from translation of arabic and jewish literature for Europe until Charles V Emperor at time of Conquistador's assault on Amerindians...
- 1950-01-23 "The Knesset resolved that Jerusalem is the capital of Israel" - problems of Levant are too complicated to mention here in short but the rest of the World should consider that spiritual Israel translates as "Kingdom of God" and Jerusalem as "Teaching of Peace" and it refers to Christianity and possibly World as a whole and not to the parched place in Levant (Palestine) that the God abandoned long ago after Jews abandoned following the God despite it was once a stage for God's Work and alive Parables and spiritual Growth of this Civilization... Consider that Chicken does not keep venerating the empty Eggshell even if or more so if old moulted Hens brawl who will devour it... There is absolutely nothing Divine about present Israel or Zionism (beside Respect of History) and abandon trust in pro-Zionist Christian preachers... Consider J4:20-23 - "... for salvation is away from the Jews ..." and let them brawl for their empty Eggshell in Levant (Palestine)... (Instead various decadencies like Neomarxism, Hoellywood, Lieberalism and FakeNews propaganda comes from Jews and there's no Salvation in these...)
(When thinking more, what may be wrong with that: consider, that State Capital requires a lot of Secular and Trade offices and Jerusalem should rather be a Spiritual Center and not a Burreaucratic and Trade one? Also a "Capital" forces many Embassies there and the Jerusalem city is not much comfortable and welcoming for foreign Delegations... Capital City attracts specific Class of People and Bussinesses and these should be kept away from Religious sites... And Tel Aviv is securely away from various Religious Fanatics while Muslims also have their portion in Jerusalem and cannot be driven away from there... As Salvation is (being) away from the Jews but the Security is away from the Arabs... Even the Religious Jews and Wise Statesmen should have been protesting against moving State Capital and all Embassies and Trade Centers to the Jerusalem...)
- 01-23 Marriage of Mary and Joseph ? (that's not wrong)... Consider names Ioseph, Mariah and Joshua meaning "Causing to Add Insurrection and Salvation"... because Insurrection (Bitterness and Rebellia) leads to Salvation... May this be meaning of these names? Possibly... The Names in Bible are not for vain...
- 01-23 Phillips Brooks of Yale University - Yale hosts a supremacist and witchcraft cult 322...
- 01-23 Marianne Cope of Molokai - a religious sister and nurse who established hospitals in NY and Hawaii - was righteous...

International Dance Day, Catherine of Siena, Chemical Warfare and OPCW

politicization - wrong

- 04-29 "International Dance Day" -- "dance" is very mixed right-wrong deed...
- 04-29 **Catherine of Siena** - Dominican laywoman and papal negotiator and an ecstatic writer (a witch?) who died probably of consequences of mental **anorexia** - a first woman declared to be a "Doctor of the Church" - see **1Tim2:12** ...
"practiced extreme fasting and asceticism, eventually to the extent of living solely off the Eucharist every day" - **anorexia** is not a spiritual way and should not be advised to devotees...
(quoting wiki) "these ideas themselves are not so much based on reason or logic as they are based in her ecstatic mystical experience" ... - Her "Dialogue" was written in first person as if God said that but it contains miscues...
She was among key figures leading to **Western Schism** of Three Popes...
- 04-29 "**Day of Remembrance for all Victims of Chemical Warfare**" was moved to 11-30 and this is now "International Day for the Foundation of the **Organisation for the Prohibition of Chemical Weapons**" - recent **OPCW** politicization is not good and it's suppression of witnesses of that is even worse...

Fat Boy Nagasaki - wrong, Indigenous People - misused feast

- 1945-08-09 Bombing of Nagasaki
- 08-09 "International Day of the World's Indigenous Peoples" - we White People are also Indigenous in Europe and UN forgets that... promoting "Dignity" is wrong - there should be "Respect" instead...
- 08-09 Mary Sumner - founder of the Mothers' Union - "gave a passionate address about national morality and the importance of women's vocation as mothers to change the nation for the better" - and was married and a good mother - todays single mothers spoil whole generation of children into *lieberals* with a grim trend... Instead today they "internationally speak out on issues of gender equality" - a "gender equality" is a dangerous lie - a woman mother in a family with her children are the most precious ones of this civilization while single woman is nothing more than a man and then she has uneven field of competition because of unequal burden of cyclic hormones and different wiring of neurons... Why did there slip in "family in its many forms" - family has got a very typical form of man, woman and children... (Otherwise it seems to be a good and praiseworthy union celebrating and promoting a healthy family life...)

Only partially related is treason of **Istanbul Convention** - a very wrong tool of feminist lobbies to spoil families and dimorph relations... Consider that women "feeling hurt emotionally" is not any violence and it is rather a natural state... GREVIO is grave meddling in internal state affairs and a feminist tool to extort disobedient states... There is a prophetic saying: "Alas to whom the woman rules" ("**Beda ktery m zena vladne**")...

Wrong Same-sex Marriages, "Measurement" of Human mind

- 10-22 **Aaron the Illustrious?** - babylonian christian?

- 2013-10-22 "The Australian Capital Territory became the first Australian jurisdiction to legalize same-sex marriage with the Marriage Equality (Same Sex) Act 2013" - there is not and never should be equality between Right and Wrong or between Beneficial and Harmful to society...
- 2019-10-22 (following year) "Same-sex marriage was legalised and abortion was decriminalised in Northern Ireland as a result of the Northern Ireland Assembly not being restored"
- 10-22 **Jidai Matsuri** in Kyoto - while it's good to be proud of own traditions but it's wrong to venerate Emperors as Gods making them "shrines" (**Mikoshi**).
- 10-22 **Fechner Day** - in memory of psychophysicist **Gustav Fechner** - with "measurement and mathematical treatment" of human mind... But human mind is often more complicated and diverse than to be quantified only numerically...

Patriarchy is Collective Love of Women and Children by Men...

- 1998-12-31 "The **European Exchange Rate Mechanism** froze the values of the legacy currencies in the **Eurozone** and established the value of the **Euro** currency" - While **Euro** helps some economies it harms others... The currency is too strong for southern countries and recent Greek economic crisis was perhaps foremost caused by using **Euro** without possibility to devalue own currency in case of economic problems...

EU is a Burreaucratic Totality and a Union striving to melt away and devour it's constituent Nations, slowly approaching USSR (or even China?) in more soft way... Consider that Babylon in Revelation and Genesis prophecies is quite possibly about this **EU** which even made Babylon Tower it's sign by an architecture of it's Parliament building being deliberately built similar as one famous painting of a Babylon Tower...

When will European people realize that "sweets" of economic prosperity are not worth "corrupt teeth" of their children's future?

(But consider that the **Euro** currency cannot be abolished completely while harming many innocent people, but individual "poor" states should have a chance to exit from economic servitude to the large and central banks...)

Thomas Aquinas eternalization is obsolete

● 03-07 Blessed **Leonid Feodorov** and **Gulag** victims... - but being "**Russian Catholic**" is not right - it's foreign cultural import which harms global diversity... Respect and Cooperation should be favoured but Unification and Obliteration of Differences is wrong...

● 03-07 **Perpetua and Felicity**

● 03-07 **Thomas Aquinas** - theologian of scholasticism - **Dominican** friar who "is considered the Church's greatest theologian and philosopher"...

Wrong **Pope Pius X** has written: "The capital theses in the philosophy of St. Thomas are not to be placed in the category of opinions capable of being debated one way or another, but are to be considered as the foundations upon which the whole science of natural and divine things is based" - there is nothing sound and right that does not withstand debate and no human knowledge is eternally right and complete... - for example his "**Cosmology**" theses are medieval opinions but obsolete today while once it was probably good and some other theses are also blunders proportionate to the medieval state of human knowledge... It was good at that time but claiming it is "Perennial Philosophy" is a blunder...

A child may have a clever childish thought and you don't say it's wrong or stupid while it's clever for it's age. But striving to uphold it immutable into the adulthood is wrong... Antiquity and middle ages were childhood of civilization and **Thomas Aquinas** was a clever child but today that **Thomism** is partially obsolete...

Pi Day, Sikhism

● 03-14 **Pi Day** - scientist celebration?

● 03-14 **Nanakshahi New Year** in **Sikhism** - **Waheguru** is just deification of own gurus and **Guru Nanak's** idea "one God who dwells in every one of His creations" is not true or only partially true - God is much bigger and mightier than what fits in Human beings...

● 03-14 **White Day** - "complementary day of Valentine's Day in Japan and Korea" - "giving response gifts one month after Valentines Day" - is it a bargain? (Maybe it's right in Far-East context and traditions, I don't know...)

US feminists, British wrong Glorious Revolution

- 06-30 "First Martyrs of the Church of Rome"

- 1688-06-30 "Glorious Revolution" - a wrong revolution in Britain... anti-catholic and generally anti-christian Test Acts were prolonged and are a root cause why England is so Antichristian today...
Bill of Rights 1689 was mostly right but wrongly "barred Roman Catholics from the throne of England" while there is rather wrong Anglican leadership by "British" crown... (which even isn't British so much?)

Jan Hus, Thomas More

- 1415-07-06 execution of faithful martyr Jan Hus by a rogue Council - Jan Hus rightfully criticized "infallibility" and sins of medieval decadent Church Hierarchy and strived to move Christianity nearer to The People... Because the proud Church did not listen, the Reformation Movement a century later had to be more emphatic...
(A "Miracle" in support of his canonization can be considered among else that the Defenders in his name Hussites the Godly Warriors sustained and defended against five Crusades until the Utraquists gained their Dual Communion for which they fought by Compacts of Basel...)

Indulgence trade - wrong

- 08-02 [Samuel David Ferguson](#) - "first American born Black person to be elected a bishop ... in Liberia" - it's not wrong if Africans have Black bishop but this one was consecrated as bishop in New York - "becoming the first black member of the House of Bishops"...
- 08-02 "Our Lady of the Angels of the [Portiuncula](#)" in [Franciscan Order](#) - a feast for selling [Indulgences](#)... While it may be used for Beneficial purposes but it's doctrinal background is at-least partially untrue... People should not rely on being able to Buy the Mercy... God and Angels may forgive the Sins upon Penitence but trying to buy this by an Indulgence is often not possible... But try to alleviate Angelic Justice for your Sins by some form of Charity - sometimes it helps, more so if done unfeigned...

Also Franciscans partook on the Inquisition and torture of innocents...

But Franciscan spirituality and their relation to the natural world are righteous...

Can you use some other form of Crowd-Funding of beneficial purposes beside and then instead of [Indulgences](#)?

People should realize that depending on Government and Oligarchs to finance projects is often not beneficial to The People and they should more engage in Crowd-Funding of Beneficial Projects and/or the help to the Poor - because suffering of the poor people is often not beneficial in consequences to the rich and middle-class people either, just sometimes it takes longer before it backfires...

--

About Crowd-Funding of Alt-Media - The People should realize that trully Independent Media are sponsored by their Readers... Relying on Oligarchs sponsoring AltMedia (for ex. by Advertisements) often leads to the Oligarch control over the Content of those Media and Auto-Censorship of those Journalists... Recent Google crackdown on AltMedia is most probably caused by behind-the-scenes pressure from advertising Oligarchs... While we should request Impartiality of Communications Providers without meddling or judging the Content but no one can request being Sponsored by Oligarch Advertisements or by Governments...

 - 08-09 Mary Sumner - founder of the Mothers' Union - "gave a passionate address about national morality and the importance of women's vocation as mothers to change the nation for the better" - and was married and a good mother - today's single mothers spoil whole generation of children into *lieberals* with a grim trend... instead today they "internationally speak out on issues of gender equality" - that "gender equality" is a dangerous lie - a woman mother in a family with her children are the most precious ones of this civilization while single woman is nothing more than a man and then she has uneven field of competition because of unequal burden of cyclic hormones and different wiring of neurons... Why did there slip in "family in its many forms" - family has got a very typical form of man woman and children... (Otherwise it seems to be a good and praiseworthy union celebrating and promoting a healthy family life...)
- Only partially related is treason of Istanbul Convention - a very wrong tool of feminist lobbies to spoil families and dimorph relations... Consider that women "feeling hurt emotionally" is not any violence and it is rather a natural state... Mother Teresa

- (A good new spot soon turned wrong...?)
- 09-05 [Mother Teresa](#) who founded "[Missionaries of Charity](#)" sisters order - the things for which they are [criticized](#) mostly stem from the destitute in which they work with the needy, which is somehow conflicting with a report of huge funds available - is it true? Secret baptism about which it's recipient does not know does not help his soul much... In the case of a Child Baptism it is a Chance of later making Spiritual life easier but in the case of "baptising" a dying one without him knowing it - that probably does neither help nor harm... Helping "refugees" is harming the recipient society...
- As that Criticism of [Mother Teresa](#) links to "[Prelest](#)" article - it's partly true what it writes and partly may be these Eastern philosophers in [Prelest](#) themselves with thinking they know it better what is and what is not good for people with Western mentality... For example at the end of article "meditative prayer ... the spiritual teachers of the East categorically prohibit" seems as a blunder of the Eastern - a humble and silent Prayer is often more important than a splendid Liturgy... It's true that considering self as Ideal is always Wrong and that Pride is among worst of Sins...

- 09-20 John Coleridge Patteson - missionary to Melanesia
- 1378-09-20 Western Schism of Three Popes - that was not a good time...
- 09-20 Wrong "Universal Childrens Day" (Weltkindertag) only in Western Germany which "laid its emphasis ... on political efforts to strengthen children's rights" - so Western Germany has been brain-washing children worse than Eastern Germany...? Taking care of all world's children but not for it's own - as is evidenced by "Refugees welcome" arch-treason?! Jugendamt - is it abusing state power against families as CPS and Barnevernet does? CPS in USA is among the worst crimes against humanity... (Did you ask where all those confiscated children end either complete or in parts?) It should be a foremost human right to raise own children and to be raised by own parents and State or Burreaucratic authorities should not have any right to take away a child from parents unless the child itself begs for that...

- 2017-12-07 "The **Marriage Amendment Bill** to legally recognize same-sex marriages was passed in Australia's parliament" - there is no equality between right and beneficial and between wrong and harmful - sanctity of the "Marriage" of man and woman should not be stained by comparing and equating it to a depravity of gays... Name it "Registered Partnership" for gays and lesbians and other perverse groupings but neither a "Marriage" nor "Wedding"...
(the law was introduced by depraved lgbtqp member of parliament who was later established as a "Whip" to toe government and party lines in parliament - that is a taunt of democracy (enforcing party committee opinions against democratically elected deputies of the people - which is then very similar to Eastern "Socialism" of 20th century...) and a dangerous development (to give that "Whip" into hand of a depraved gay) in Australia's politics...)

- 12-15 Kingdom Day **Netherlands Koninkrijksdag** - it's rather obsolete in democratic Europe - early proto-democracies were longest left with monarchy system but at least they don't have to partake in regular presidential election circus... "**Charter for the Kingdom of the Netherlands** on 1954-12-15" is an awkward colonial age remnant... by **Queen Juliana** - having a queen is even worse than having a king... at least today they have a King and not a Queen...

"Victoria was made crown princess on 1 January 1980 by the 1979 change to the Act of Succession of 1810. Claiming communication operators are "publishers" is dangerous attempt by establishment and bureaucratic regimes and non-state oligarchs to make thought-police from communication operators...)

- 02-08 **Propose Day**

- 1910-02-08 **Boy Scouts of America** was incorporated... Scouting is very good for boys... -- it is a pity you've let the BSA be harmed recently - defend your scouts! - those "sex-abuse" trials are wrong inquisition-like attempt to destroy the movement and it's a wrong collective guilt principle... If there is as anywhere else someone from 2% depraved gay community in the ranks of scouts it's his personal problem and an organization must not be destroyed by fake law-suits... the judges in these trials are criminals and should be impeached and their previous rulings in this annulated...
"boys will be boys" is a truth and a desired outcome but bullying should be discouraged and protected...

- 1968-04-03 **Martin Luther King** speech "I've Been to the Mountaintop" after which on following day he was shot - won Nobel Peace Prize for combating "racial inequality" - of those who are really inequal! - present ethnic destruction of society and anti-white hateful lies in USA are a consequence...

We are not Equal but we are Unique : Those Equal are Replaceable and Vain...

(Recent BLM riots in Minneapolis instigated in order to distract people from Coronavirus failure by a fictitious HOAX "murder" of George Floyd on 2020-05-25 were an example, where this anti-racist (but rather racist-turned-wrong-direction!) propaganda of jewish MSM (mas-media) leads... While they first claimed the Riots are a result of 400 years of slavery abolished 150 years ago, and then jewish mayor and governor even tried to claim, it's caused by "White Supremacists", when the riots turned totally unhinged... No, it's a result of two decades of anti-white racist "anti-racist" Propaganda and Brainwashing... And Trump cannot intervene, because Demographics called "Democracy" forces him to pander to all Minority votes... What a Sad Stalemate...)

WHO - wrong and dangerous attempt at world government

- 04-07 "International Day of Reflection on the 1994 Rwanda Genocide" - the culprits of that genocide still rule there - they reversed the culprit and victim perception! - Paul Kagame and Tutsi are worst criminals and their support by CIA was also criminal...
- 1948-04-07 WHO (World Health Organization) was established :
- 04-07 World Health Day - WHO is a non-transparent and corrupted gang which *Someone* (oligarchs like Bill Gates and Chinese communists) strives to make a World Ministry of Health - worst part of NWO... Coronavirus crisis due to WHO is prime example where does this centralization lead... Presently headed by a communist terrorist - a witless and ruthless African criminal Tedros Adhanom - which exposes how is the organization led and to which people this criminal does not matter... Microcephaly caused by prenatal vaccination experiment (mandatory vaccination of pregnant women) accused on a "Zika Virus" was another example of WHO corruption by pharmaceutical giants... We need local sovereignty foremost in the case of health-care... Electing Global Bureaucrats by 194 member states is not a democracy but a demography...
But I hope it could get better and we will remember organizations like these should serve as a forum and be advisory but not governing...
- 1969-04-07 "The Internet's symbolic birth date: Publication of RFC 1" - rather see 11-21... Internet is a great tool to spread information and bypass censorship of oligarch-controlled mass-media...
- 1927-04-07 "The first long-distance public television broadcast" - television is centrally controled brainwashing where someone else selects the information you should receive...
- 1829-04-07 "Joseph Smith, founder of the Latter Day Saint movement, commenced 'translation' of the Book of Mormon" - that was a lie and deception and hardly can anything good be built on Lies... - there is nothing "saint" on Polygamy which is vindicated only after a large-scale war with profound lack of surviving men... But otherwise Mormons are probably much better than Lieberals...

Climate Hoax and Big Robbery of "Paris Agreement" - wrong

- 04-22 **Earth Day** - environmental activism turned completely wrong with a Climate Hoax
- 2016-04-22 "The **Paris Agreement** was signed, an agreement to help fight global warming" - a Great Robbery supported by a fake Climate Hoax... They want to pump \$100 billion from poor people of "developped" nations into vain "green" projects to a great rejoice by oligarchs providing supplies for these projects... Nature Loves CO2 and Nature loves moist warm green-houses... Drought is a problem and not warming, and CO2 causes almost no warming but deserts and aerosols (sand, soot) do... "Net Zero Carbon Emissions" wants to bring Death of the Society... Consider that at the era of dinosaurs there was 8x more CO2 and 2-3 °C higher temperature and nature was thriving and they became extinct due to meteoritic impact and cooling and not due to warming... Climate Hoax is a Big Lie! (Good enough that **Donald Trump** stopped participation in that deception...)
- 1804-04-22 Genocide of White People on Haiti "**1804 Haiti massacre**" ended when Haitians after abolition of slavery murdered all whites and creols in their country... Ordered by devilish **Jean-Jacques Dessalines** whom they celebrate to this day... Haiti deserves all it's destitution and misery resulting from black rule over their country...

EU Babylon Tower

- 05-09 **Europe Day** - celebrating **Schuman Declaration** that has led to establishing of **ECSC** - a predecessor to **EU** - read **Rev13** with precisely stating flags of initial members of **ECSC**, incomplete 42 years from Treaty of Paris until Maastricht Treaty and it's two simultaneous Presidents... And listen to **Nigel Farage Farewell Speech** in **EU Parliament** summarizing what's wrong with **EU** - including the manifestation of Hate against Nations when the Chairwoman muted his microphone out of hate of national flags - a gesture symbolizing their attempted Obliteration of Nations... (There has been multiple occasions of this Hate against Nations symbolized by their National Flags... In all cases I've seen there was a Chairwoman perpetrating this Wrongdoing of Silencing the Opposition, which seems symptomatic, because women are more docile to implement either right or wrong policies without objecting them or clever at using tools invented by men, which is why the Oligarchs behind the curtains push this Propaganda of Woman Equality and Quotas in "Leadership" roles, where the woman usually just Occupies that Role without actual Leadership, docile and obedient of beloved authority but merciless heartless termagant against those she has power over... Men of power are usually often more benevolent and fair and less obedient of authority...)
"If the blind lead the blind, both shall fall into the ditch." (**Mt15:14**) - The "blind" are those who do not look in advance, where does their steps lead, and only contemplate the present state... The present course leads to Obliterating the Nations in a Bureaucratic Totality of a Union... But discarding the Union completely could lead to a raise of National Enmity some day - we need a Compromise way... Contemplate, what the Circle of same Stars symbolizes and what is not there... There is no large Central Star governing all the others and all cooperate on an equal basis... There should be inter-national cooperation and coordination but not a supra-national governing and uncontrollable body... In mutual inter-national relations we should engage as-if-with-Equals, while in Domestic matters we should stay Sovereign with our unalienable Home Rights and cultural specifics... How to best avoid obliterating and assimilating our most precious Nations while also preventing an Enmity and Oppression ?
- 05-09 **Victory Day** - Russia so much condemns "Fascism" because they have a Righteous (right-wing and Patriotic) National "Socialism" under Vladimir Putin rule today and they do not want to admit it... German Fascism was wrong in it's assaults on neighbours and an attempt to Obliterate other Nations but Nationalism and Patriotism can also be implemented rightfully to the Benefits of the Society and not to it's Harm... (How does Russian Federation tend about it's constituent nations, specifically about those non-Russian?)
- 1945-05-09 End of **World War II** (as delayed by circumstances - the **German Instrument of Surrender** was signed at 1945-05-09 00:16 local time) - with brutal war-crimes committed before and **after** that End of War by "Allies" against German people...

Now the Vacciners created the Coronavirus Disease Plandemic and they plan to Maim the People with their forced Vaccination and to destroy freedom with their Evil Contact Tracing... Contemplate Benjamin Franklin quote: "The man who trades Freedom for Security does not deserve nor will he ever receive either." Their prepared Covid and it's Vaccination are a Treacherous Trap even if they proved as medically harmless unlike many other vaccinations... It's not only Autism, but also various Allergies and other Immune system malfunctions...
(Did you know that in Israel they **already invented** a vaccine against Covid in advance and if we are going to be forced into a treacherous forced vaccination as some of them plan, the Jews in Israel would receive most probably another vaccine, their own?! As it didn't happen yet and regardless of all else, there is a Potential to introduce some Treachery against us...)
No vaccine should be mandatory for all and every vaccine should be tested by statistically comparing outcomes of variously vaccinated and unvaccinated people in longer perspective... Their "Collective Immunity" Mantra is just an Evil Lie to avoid having Control Sample of unspoiled population - and mostly in case of Measles, where the Collective Immunity prevents gaining Natural Immunity by overcoming the disease and so it causes various Complications, when someone gets the Measles as adult without being naturally immune...)
- 1948-05-14 "**Israeli Declaration of Independence**"... Jews are rather guests in land of Israel and should make such "Inclusive" society that Palestinian Arabs can live there too, but those must deserve it by their peaceful behaviour... Some Western Propaganda Liars claim, that Israel is "vibrant democracy" while it is an Apartheid Racist state... - 05-15 **International Conscientious Objection Day** - a "right to refuse to perform military service" - While some people are Defenders and their task is to Guard the Wellbeing of Society possibly with an Arm, others' task in Society is different... Engaging in Attacking War is always wrong and we should have a freedom of conscience not to partake on this wrongdoing...
- 05-15 "**Peace Officers Memorial Day**" in USA - this celebrates those Guardians as Police forces... (I thought it was placed on this date in order not to talk about "Conscientious Objectors" but it has been established earlier...)
- 05-15 "**Nakba Day**" in **Palestine** mourning "**Israeli Declaration of Independence**"... Reconsider **Trump's Peace Plan** - it was a good compromise offer... Possibly negotiate about particular details... There is no way to "Return" to Old Times, rather find an acceptable way Ahead instead...

Jerusalem should be a Religious Center accessible to all cultures and not an Administrative Capital with all kinds of Bureaucrats and Trade Offices and Foreign Embassies etc... needed in the Country Capital... ITU standardization and neutrality

- 05-17 **William Hobart Hare** - who "earned the title the Apostle of the West"...
- 05-17 **Feast of Azamat** in Baha'i Faith...
- 05-17 Saint **Giulia Salzano** - founded a "religious congregation dedicated to catechesis and education" named "Catechetical Sisters of the Sacred Heart of Jesus"...
- 1865-05-17 "The International Telegraph Union (later the **International Telecommunication Union**) was established in Paris" - a standardization is a root of cooperation and success... Today we need to enlarge the concept of a neutral "Communication Service Provider" to Social Networks... And people should reconsider using non-centralized communication Forums instead of Centralized Oligarch enterprises like Google Twitter Facebook and Others... "The **ITU** Union was tasked with implementing and the right of everybody to use the international telegraphy"... This "Everybody" should include Righteous People foremost...

LGBT depravities are harming our Freedoms

- 05-17 "**International Day Against Homophobia, Transphobia and Biphobia**" - upright society should rightfully despise these deformations. The Evil Liars are pushing this Depravity and harming our freedoms... We need our Freedom of Speech to Vilify the Wrong in order that Youth knows, what is Right and what is Wrong, and banning this righteous vilification of wrong is a treason committed in order to spoil our Youth, regardless if peddled by jews, **WHO** started most of these depravities, or by their brainwashed leftist *lieberal* followers... It's better to be Upright than to be Depraved, it's not Equal and it's never better to be Depraved... Foremost despise and distrust the Liars **WHO** claim otherwise in order to spoil you or your Youth... If you don't understand that, contemplate **WHO** and how brainwashed you... And no, this is not a "HateSpeech", this is Right Opinion and an attempt to Heal the Wrong in Society out of Love of People and future Generations, and instead it's just totalitarian *lieberals* **WHO** Hate people telling the Truth... Right people should consider, that we do not have a Right to Harm others physically but we should request our Free Speech Rights in order to Rightfully Vilify and Despise the Wrong, in order to Help them see their Wrongness or to Warn the Youth against their Depravity...
- 05-17 "**World Telecommunication and Information Society Day**" - communication service providers like Telecom or Google, Twitter, Facebook and other Oligarchs should abide by Neutrality and must not dare to judge or censor speech of People participating in Communication... Communication Service Provider is not a Publisher and is neither responsible for nor entitled to judge the Communication Content...
- 05-17 **Saint Restituta** - we should Restitute our Freedoms and the Freedom of Speech foremost...
- 1990-05-17 "The General Assembly of the **World Health Organization (WHO)** eliminated homosexuality from the list of psychiatric diseases" - a corrupted gang... They should return it there...

- 05-19 **Malcolm X Day** - celebrating a **black racist muslim** activist who was "preaching racism and violence"... Standardization, Saint Bernardino, World Bee Day

- 05-19 or 05-20 **Alcuin** of York known for developping or spreading use of "Carolignian minuscule" in 780's "under the patronage of the Emperor Charlemagne" - a combination of upper-case and lower-case letters used until today...
- 05-20 **World Bee Day** - bees are very beneficial and necessary for the Nature and Humanity
- 05-20 **World Metrology Day** - decimal measures of a world-wide and scientific standard... Americans should contemplate, why they still use the obsolete Royal units - it's because Freemasons have encoded various abominable things in these units of inches and feet and do not want to ditch them...
- 1875-05-20 "Signing of the **Metre Convention** by 17 nations leading to the establishment of the **International System of Units**" SI... History of the metre writes: "scientists looked for measures that were universal and could be based on natural phenomena rather than royal decree or physical prototypes"... Metre was initially established as 1/10,000,000 of quarter of Earth circumference from pole to equator and kilogram was established as weight of 1 dm³ (a litre) of water... (Today metre is defined as 1/299,792,458 of distance travelled by light in vacuum in one second...) Using decimal system in units eases a lot of computations, which is why NASA also uses that - Americans, think about your backwardness of still using British Imperial measures...

Skilled workers are scarcer than unskilled, so that the former will command a higher wage"... (which is also a source of purported "gender gap" of wages)... Saint Agnes, Saint Chad, Charles the Good, John Maron, Jamahiriya Day in Libya -- huge Cross-shaped Sunspot evolved into a shape of Lamb with seven Eyes

- 03-02 **Saint Agnes** of Bohemia (Svatá Anežka Česká) - princess who instead of pre-arranged wedding took care of the ill and poor leading the monastery as abbess and organized order "Knights of the Cross with the Red Star"

As a consequence of her canonization (Increased courage of the people... Or was it just a time-coincidence?) there has been within one week an anti-bolshevik revolution which toppled the communist regime in Czechoslovakia and she is honored as the "Saint of the Overthrow of Communism"

I know a Living Saint namesake or reincarnation of this **Saint Agnes** named Anežka J. but a living person cannot be officially proclaimed "Saint" yet even if everyone around feels and understands it... It is quite probable that many real "Saints" have been living among people and were not canonized by the official Church...

- 03-02 Saints **Chad** and **Cedd** of Mercia - celtic bishop and abbot in central England in Mercia and Northumbria who are "credited with introducing Christianity to the Mercian kingdom"
- 03-02 **Charles the Good** - Count of Flanders - who among else "expelled Jews from Flanders, attributing their price gouging as a cause of additional suffering during the famine" in 1125 as a consequence of which he has been assassinated by a conspiracy in 1127... "was almost immediately regarded popularly as a martyr and saint, although not formally beatified until 1882"...

Feast of the Ascension, World Bee Day, World Metrology Day

- 2012-05-20 was Feast of the Ascension of Jesus Christ - if moved to following Sunday after that Thursday...
- 05-20 World Bee Day (proclaimed such later since 2017) - Bees are very important for ecosystem and for all fruits...
- 05-20 World Metrology Day - why do backwards people in USA still use obsolete British imperial measurement system?! Probably because otherwise that Washington massonic Phallic column would not measure those symbolic numbers in feet and inches...?

Thanksgiving Day, Saint Cecilia, J.F.Kennedy

- 2012-11-22 was fourth Thursday of November - **Thanksgiving Day**
- 11-22 **Saint Cecilia** - patron saint of musicians... (most probably of sacred musicians or rather of soul-pleasing music in general but probably not of just any secular blasphemy and depravity?)... Great thanks to all church organists and chorals who make the liturgy specially pleasing to the souls of attending worshippers and angels...
- 1963-11-22 and 1968-11-22 **The Beatles** released two albums on **Saint Cecilia Day** probably not by a coincidence...?
- 1963-11-22 **J.F.Kennedy** was assassinated by a conspiracy of **Chicago mob**, CIA and **Israeli agents** leading to a "Conspiracy Theory" anti-campaign slogan to cover-up, suppress and ridicule public knowledge of many following Conspiracies and Wrongdoings... a "Conspiracy Theory" became an evil magic spell to dumb mind and close eyes of Simpler People by Propaganda Liars and their Brainwashed Abettors... (While some of these "conspiracy theories" and absurd accusations are peddled intentionally to discredit the doubting and truther movement...)
If you hear someone accusing some Report or News as a "Conspiracy Theory" then understand that they want you to stop thinking and listening and to look somewhere else... If you hear some accusation of a "Conspiracy" or "Clandestine Wrongdoing" that is possible but not sure - then ask: "How much is it probable or right?" (Usually partially...) and also "What can I do with that...?" Usually nothing... Possibly start to be healthy suspecting and more vigilant and choose better whom you Trust...
If you think there is no "Conspiracy" at all, then ask yourself why you think all unelected People of Power are as stupid as you and do not plan anything? And why do you think that if you are fair, then everyone else is fair also and has nothing to cover up? That is really naive...

Probably there are just few...)
- 05-29 World Digestive Health Day - some countries have terrible typical diet causing extreme obesity and various other diseases... Among reasons for Diabetes is using of Round-up Glyphosates... The obesity in USA is most probably because people eat too much because their victuals have poor nutritious value?? Some problems are so wide-spread that they may be caused by systematic problems...
- 1886-05-29 first advertisement for Coca-Cola - is it healthy and in what amount? Some of the Advertisements (TV, Newspapers) are another form of payment for watching it but street billboards (beside shop front-signs) are visual pollution and outright theft because who owns the wall usually does not own the pavement on which the people walk and they steal people's attention... Ads on internet are also a form of payment for reading that site but some are too aggressive and thereby expensive for the reader... Better choose reading a site that is not aggressive against you... Advertisement induces people into Consumerism and wrong desire of vain things and is not only a visual pollution but also a spiritual pollution...

Abuse of Children is wrong

- 06-01 **Children's Day** - today's propaganda prevents righteous fostering of children... Minor bodily punishments are often necessary... It needs to be moderate but it cannot be forbidden completely... Everyone should have a Human Right to foster own children and to be fostered by own parents... Unless the Child itself begs for help, the State must not steal children from families with abuse of power and various wrong "justifications"...

CPS in USA is among worst crimes against humanity - where are all those confiscated children?! Forced Child Labour and more so if in unhealthy conditions is a shame of humanity and vulture capitalism-colonialism...

There is a problem with "Population Chernobyl" in Africa - unrestrained exponential growth is impossible to sustain and inevitably leads to a catastrophe unless started to be controlled sooner than too late - the planet is not infinite...

(Or rather because in Russian "gruz, gruzit" means "bulk, burden, load"? Then I understand why they want to get rid of that name...) **Gruziya** (originally probably "gurzi" and in Syriac spelled as "gurzi-yan" today striving to be named "Georgia" and really named "Sakartvelo") may be related to ancient **Khazaria** which may be among reasons why they want to get rid of that name...? I dislike attempts to erase the history even if it was unpleasant...)

- 11-27 Naval Infantry Day (Russia)
- 1895-11-27 Nobel prize was established - Nobel prize for peace has been irreversibly stained by Obama, Roosevelt, Churchill and other war criminals receiving it (and by an attempt to give it to ISIS terrorists of "White Helmets") - while physics Nobel prize was stained by WMAP team liars and other blunders like claims of Higgs Bosson being related to matter's mass... it is a "peer-review" prize often given by one blunderers to others... Sunspot since 2014-12-21 07:00 - turning sunspot rolled as normal old SC24 from eastern limb and gradually turned to SC25 polarity counter to the differential rotation flow and reconnected elsewhere - \$g\$ (crossed northward orientation at 2014-12-26 between 21:00 and 22:00)... Maybe it's just a normal phenomenon since later I found multiple such "turning" spots - usually the strongest ones either overflow opposite field in another direction or gradually turn from Earth's view-point and it would be interesting to find if they "turn" from any view-point or if they "turn" to track Earth planet...? The coronal field-lines in AIA171 seem to reconnect elsewhere when it turns so it may not be simply a matter of our view-point...? It deserves further scientific investigation...

If there is as anywhere else someone from 2% depraved gay community in the ranks of scouts it's his personal problem and an organization must not be destroyed by fake law-suits... the judges in these trials are criminals and should be impeached and their previous rulings in this annulated... Henry Muhlenberg, Sergius and Bacchus - military friends, Averting of Ottoman conquest of Europe in Battle of Lepanto

- 10-07 **Our Lady of the Rosary** - celebrating victory over Ottoman navy in 1571 in **Battle of Lepanto** "marking the turning-point of Ottoman military expansion into the Mediterranean"... - that is when European powers united in a "**Holy League**" against Ottomans... (although that league was made of quite unholy members)

- 10-07 **Henry Muhlenberg** - "considered the patriarch of the Lutheran Church in the United States"

Francis Xavier Jesuit Inquisitor - wrong, UN "Disabled Persons" equality and leadership - wrong lies

- 12-03 **Francis Xavier the Jesuit and Goa Inquisition** - was exporting christianity into Japan and India and started a **Goa Inquisition** to punish "crypto-hinduists" who dared to retain their original culture - a very wrong deed...
- 12-03 **Johann Nepomuk von Tschiderer** - probably a good prelate taking care of sick and poor...
- 12-03 "**United Nations' International Day of Persons with Disabilities**" - promoting falsehoods of "Equality" and wrongdoing of "Inclusiveness" which leads to disable normal people to the level of the naturally disabled... We are not Equal. And "Inclusive Education" which debases level of education of the majority in the name of "Inclusiveness" of the disabled and un-educatable is wrong treason against us The People... There should be special schools for elite students in order not to brake them to the level of the normal people and special schools for students with learning disabilities in order not to brake the normal people to the level of the disabled... Freedom of choice and Freedom of personal Evolution of All and not only of the "Disabled"... In last years 2018 and 2019 these UN promote "empowering and equality and inclusiveness and leadership" - which "equality" is false and "inclusiveness" is harming the majority but "empowering and leadership" (quotas for disabled people in leadership positions?) are outright dangerous treason...
(While some chivalry is needed for women, children and the weak in general but it should not be done as to harm advancement of the majority and ultimately the Best and most Skilled ones should Lead and not the Worst or Disabled...)

Cultural fornication is wrong

- (There are not much "wrong" feasts on Jan 2 except "[Vedanayagam Samuel Azariah](#)" and while investigating more there may be a specification: the magnetic field around that spot reads on morning 2016-01-02 hebrew ךאג "to commit adultery, to apostatize" and at the time of that spot at evening hardly discernable "[Tamil India](#)" in uppercase latin letters but that could be a random noise since usually there are not inscriptions in magnetic field like that... But it could be a specification what is wrong on Jan 2 and it just confirms to Me what I deduced earlier from a Calendary and it induced me to describe it in more detail...)
- 01-02 [Vedanayagam Samuel Azariah](#) - wrong Indian "saint" who was called by Mahatma Gandhi as "postcolonial Indians' 'Enemy Number One'" - probably because he continued the Anglican influence over India... "A pioneer of Christian ecumenism in India" and "wrote articles on Christian mission such as 'The Necessity of Christian Unity for the missionary enterprise of the world' (but Christianity or Missionary work should not be an 'enterprise'?! and 'The Expansion of Christianity' as well as published a number of works in his native [Tamil](#) as well as Telugu" and "Two years later one of his dreams was realized and a united Church of South India was formed, for the first time unifying an episcopal church (Anglican) with non-episcopal churches (Congregational, Presbyterian, Methodist) since the Reformation." - which is also among that "spiritual adultery and fornication"... While we should respect each other's Church we should not mix into one mould and clump of generic "a Christianity" leaving our evolved traditions for some spiritual uniform... As Indians or Koreans do not understand nuances in European Spiritual movements (same as I do not understand much nuances in Indian Spiritual Movements and Ethnic Groups) exporting Christianity to their lands may eventually backfire when Indian or Korean versions of Christianity would strive to be re-imported into Europe... I suggest against such Spiritual Adultery...
He was chosen here as a representative and wrong member of [Tamil People](#) due to miscegenation and both cultural and genetic mixture of various streams... [Tamil Nadu](#) - the land of gypsy-like people mixed from Iranian (Aryan) and Eastern and Darker people with cults which seem absurd to me (but much less harmful than for example Aztecs)... It's not easy for me to decide nuances of Sri Lanka problems between [Tamil](#) and Sinhalese (as I've been writing yesterday about [Tamil Tigers](#) on 2016-11-27)... I do not know what and if something else is wrong with [Tamil](#) or Indian people? (Do not genocide them! but do not mix with them...) I suggest against importing these Indian people (in general) into other continents for further genetic adultery of nations and I also suggest against re-import of modified Christianity or other strange Filosofies (as Vaishnavism) from Far East into the West in general... (The various "gods" of Vaishnavism are rather quite demonic and psychedelic figures and they are specific to Indian culture and let them stay there as is appropriate for spiritual level of Indian people...?) (And just a note that [Tamil](#) "Om" symbol looks like a skull - why...? Otherwise "[Om Symbol](#)" and it's spiritual meanings are probably a good philosophy... It may be even probable that the Word by which the God has started the Universe sounded something like that "Om" (Aum) - who knows...? In [Devanagari](#) the symbol looks like a 3 for Trinity (or as meant in [Bhagavadgita](#) 14) and vertically arranged "dot one and zero"... - the most common so called "arabic" numerals actually come from India... That "one" and "zero" are very important philosophical concepts and here it shows that there is a third to them (the "dot")... Of cause there is much more philosophy in this symbol than can be mentioned here... Keep your good traditions and do not fornicate with foreign cultures too much while some cultural exchange may be beneficial but not to the level of abandoning own heritage completely - always strive to refine it and not to abandon it... -- meaning this generally to most Ethnic...)
(Just a note that my personal 3 most favourite books are Evangelium, Citadel of [Saint Exupery](#) and pocket edition of [Bhagavadgita](#) - as I consider Krishna just another manifestation of Christos principle for the Eastern part of our civilization - while I understand why these should not be mixed together... Respect others being different... God Loves us All (or most of us) as I hope...)

Just to note other feasts on this date although I do not consider them particularly wrong:

- 01-02 [Berchtoldstag](#) in Switzerland and around - harmless local traditions are probably right...
- 01-02 [Basil of Caesarea](#) - a trinitarian theologian and supporter of the Nicene creed who opposed the heresies and Arianism - while I consider some parts of Nicene creed as confused and ultimately the first version (now replaced) with cursing the heretics was wrong but it is now a corner-stone of christianity and probably cannot be easily replaced... I do not know... The Arians were probably more right than wrong but it was too early to split the church on such matters and the unity of christianity within pagan world at those early times was more important than vain theological disputes much above the level of antiquity people...
- 01-02 [Gregory of Nazianzus](#) the Theologian one of "Doctors of the Church" in the West and "Three Holy Hierarchs" in the East who "made a significant impact on the shape of Trinitarian theology" - most probably a very good philosopher... (About later "[filioque](#)" clause and about the difference in scale I recently contemplated a parable of Ants in an Anthill sometimes observing a Big White Elephant walking around and then when a marvelous White Ant borns they claim that it is the incarnated Elephant himself and punish or outright exterminate everyone who does not concede to that... But the difference in scale (both temporal and spatial) between God and Humans is much much bigger than a difference between Elephant and Ants... While the spiritual difference between us and our "Marvelous White Ant" and his Heritage of the scale of our whole Civilization is also very remarkable but you beside or even including astronomers hardly imagine the true scale and duration of Universe compared to the Tiny Dot of our Planet...) (A note to Astronomers - your claim about 14 billion years is probably just a superstition and it can be even older...)
- 01-02 [Saint Defendens](#) of Thebes - we also need now and lack such Saint or Holy Defendants of our Western Christian world... [Matteo Salvini](#) or [Vladimir Putin](#) are good examples...
- 01-02 [Johann Konrad Wilhelm Lohe](#) - an importer of Bavarian Church into American Melting Pot and "often regarded as being a founder of the deaconess movement in Lutheranism and a founding sponsor of the Lutheran Church-Missouri Synod" was probably a righteous man...? "Also encouraged the sending of pastors to North America to assist the settlers and help with conversion of the Native American populations" - but that conversion and other related fate of Native American populations was rather detrimental or outright devastating to them... American Indians - please "Be Who You Are" and be proud of your own heritage and do not let your remnant be assimilated into people of European or African descent... (While the Amerindians were not decimated by Christianity and just to a smaller extent by Christians... Who was selling or pushing them the Alcohol to destroy them? Most of Native Americans were decimated by Smallpox while someone distributed them the infected blankets - although this was probably just a lesser event in that Epidemy and the European-Amerindian struggle was probably decided by [China](#) and [Yunnan](#) because America is divided from it's Tropics by a Desert preventing migration of species and viruses but Europeans inherited many diseases and plagues from [Yunnan](#) in [China](#) in medieval times and became more immune to them...)
- 01-02 [Macarius of Alexandria](#) - an egyptian monk
- 01-02 [Seraphim of Sarov](#) is actually elsewhere in Gregorian calendary - a very notable and good Russian Saint who "extended the monastic teachings of contemplation, theoria and self-denial to the layperson"... "As extraordinarily harsh as [Seraphim](#) often was to himself, he was kind and gentle toward others"... (Featured in a recent nice [fairy tale](#)...) But "[Seraphim](#) is a patron saint of Russia's nuclear weapons" - that is a sad consequence of necessity of Balance of Powers and preventing the Global War because of MAD doctrine, but it would be really Mad to use nuclear weapons in vain...
- 01-02 [Nyinlong](#) - winter solstice celebration in Bhutan - Bhutan is a lovely kingdom with their struggle for real Happiness of their people being put much ahead of the struggles for Economic prosperity...
- 1900-01-02 - "American John Hay announced the [Open Door Policy](#) to promote trade with [China](#)" - but that opened trade damaged a lot of our Craftsmen and Artisans because Chinese communists produce things much cheaper with their almost-slave labour... Not always or rather seldom is "cheaper" more beneficial... Protectionism Protects People while (((Merchants))) and (((Globalists))) prefer opened trades and they also control much of propaganda channels to push their economic doctrines of Free Trade... (I'm not an Economist and almost nothing is Black or White - there always are Pros and Cons to both sides...)

- 1569-01-11 "First recorded **Lottery** in England" - while very seldom it brings unjust gain but most often you just loose money in vain... If at least the **Lottery** was supporting charity or sporting projects...?!
- 1964-01-11 "**Smoking and Health: Report of the Advisory Committee** to the Surgeon General of the United States" - "the most famous such declaration and has had lasting and widespread effects"... - smoking is often wrong and has unpleasant consequences which you underestimate until it's too late for atonement but unjust campaign against smokers is often wrong also...
- 01-11 **Vitalis of Gaza** - patron saint of prostitutes and day-laborers... "Day laborer" is usually an exploit of worker's destitute (but sometimes it helps people in need...) and "Prostitutes" deserve no sanctity... As result of his efforts "many prostitutes in the city abandoned their profession and became good wives and mothers"... Ok... Learn what is "micro-Chimeric DNA" (that the man's DNA rests in woman and may enter the children with other man later...) - a former prostitute is seldom a good wife or mother... There really is a reason for woman's chastity...
- 01-11 in **Calendar of Saints** for Church of England incorrectly mentions **Mary Slessor** but it should be 01-13 -- "famous for having stopped the common practice of infanticide of twins among the Ibibio people in Nigeria" - but African population explosion is a disaster today... - 1865-02-01 "**Thirteenth Amendment to the United States Constitution**" was signed by **Lincoln** - end of slavery in USA...
- 02-01 start of **Black History Month** in USA and other jewish-controlled countries - a racist and treasonous event... If Blacks celebrate their own history it's a normal healthy racism but if Whites in jewish-controlled Media and Deep-state push this exaggerated veneration of Afro-Americans into all population it's a cultural treason instead... But it's sometimes understandable in current politics to pander to various significant groups of voters, more so if Gangsters like Joe Biden and rest of "Democ-rats" Mafia claim, that if someone is "Black" he must vote for "Democ-rats" even if it is against their interests... Are they at least taught during their **Black History Month** "**Who brought slaves into America?**" in order to prevent absurd aims at Reparations?
- 02-01 **Heroes Day in Rwanda** - what "heroes" do they celebrate in a country until today ruled by the chief perpetrators of at least half of their **Genocide** in Rwanda and Zaire?

Which does not mean that the evolution was spontaneous... And as life births from other life - then claiming it once formed by itself from unalive mud is just shifting the blunder refuted by Louis Pasteur more into the past... The medieval scientists claimed that living organism as worms or flies just happen by themselves from an unalive mud until Pasteur proved otherwise... Augustine of Canterbury

- 1972-05-26 "The United States and the Soviet Union signed the **Anti-Ballistic Missile Treaty**" - it is a pity that USA controlled by Military-Industrial Complex **Mafia** breaks most of these rightful treaties...
- 2016-05-26 was "**Lag Ba'omer**" - "33rd-day in Omer" ("Omer" is related to "Amera" known as misspelled by greeks as "Gomorrah") - jewish luciferian feast celebrating "hillula" (literally "luciferism" - bringing "light" to world by a deceased Kabbalist) of Shimon bar Yochai - a legendary author of Zohar (which instead comes from medieval Spain) and celebrating extermination of Rabbi Akiva's disciples by a plague - which is "veiled reference to the defeat of Akiva's soldiers by the Romans" - when probably God by the hand of Romans erased treasonous jews because of Talmud... In European countries this feast transformed into or probably influenced establishing of Walpurgis Night "Witch Burning"... (so the "Witch" being traditionally burned beside Morena symbolises also the legendary luciferian Kabbalist...) - Or was it the other way and **Lag Ba'omer** bonfires were derived from Slavic feast of Witch Burning around this time?

Abraham of Smolensk, Pope Pius X, Our Lady of Knock

- 08-21 **Abraham of Smolensk** - "a Russian monk and priest noted for his tenderness with those coming to him for his help and his advice"
- 08-21 **Our Lady of Knock** - an Irish pilgrimage site - if it helps to establish a good religiosity in the region it's probably good...?
- 08-21 **Pope Pius X** - a traditionalist pope with some good innovations... Was that "traditionalism" right at that time? Possibly... But continuing in **Lefebvrist Sect "SSPX Resistance"** is a Heresy - when they did not convince the rest of the Church to stay in Latin tradition they should join the main flock... "Heresy" means a "Sect" and it is a split-away movement which includes split-away movements in backward direction... That is why they are with their "mote and beam" so much accusing everyone else of a "Heresy"... And as "SSPX Resistance" aims at restoring the Latin mass (does it?) - but just this **Pope Pius X** was prominent among those who engaged in the **Liturgical Movement** and opened the Mass for the People in Vernacular Languages... There is a big difference between watching a nice "Performance" of some professional "Performers" and between **Communion** which means the People pray and percieve the Mass **together** with the Priest in a language they understand... Latin Mass (outside of Vatican and Italian lands) is just a Cultural Performance like some other modern culture but mass in a Vernacular Language is a true Communion and a Liturgy for The People...

Canonical coronation of Marian images is wrong - God the Father rules and not a Woman (**Dt5:7** - "You shall have no other gods before me"...) - it was a forerunner of today's feminist rule in many countries... Pius X was engaging in Marian image coronations probably because of his favourite image "**Our Lady of Confidence**" was supplemented with crowns by **Jesuits** - the crowns were clearly not present in the original painting and are a later addition - a wrong **Jesuit** influence... (Consider that Woman with Twelve Stars from **Rev12** is "Europe" and not a Virgin Mary and is not even Saint...)

(If someone is going to remove Crowns or Stars from Virgin Mary statues after reading this - please replace them by aureole or halo (gloriola) which is more appropriate and dignified...)

- 1970-09-06 "Two passenger jets simultaneously hijacked by Palestinian terrorists"

- 1972-09-06 "**Munich massacre** - nine Israeli athletes died along with a German policeman at the hands of the Palestinian 'Black September' (actually led by a jewish commander!) terrorist group after being taken hostage at the Munich Olympic Games" and after a failed wrong action of German police... - that was really wrong misusing peaceful olympic games for the war efforts... - but Israeli terrorism against Palestinian villages that was cause for this was even worse... And Israel then responded with far worse terrorism again Lebanon civilians... Terrorism against innocent ones is wrong on both sides and it does not work - it's stupid like kicking into the hornet's nest... Modesty also means being satisfied with what you have... Sometimes but not always you can choose between satisfaction by little and between vain hunger for more and more which is usually not satisfied by getting ever more... (**UaK236**)

Charles Borromeo - very wrong man!, Emeric of Hungary - also wrongly canonised, NSA and Hungarian revolt suppression

- 11-04 **Charles Borromeo** "leading figure of the Counter-Reformation combat, persecution of religious dissidents" - wrong man! with lies about being supported by Virgin Mary...
- 11-05 "Saint" **Emeric of Hungary** - died when hunting animals - not a saint's way of life and nothing to be commemorated...
- 1952-11-04 "The United States government established the **National Security Agency NSA**" - secret police against The People? - a black-box of deep-state...
- 1956-11-04 "Soviet troops entered Hungary to end the **Hungarian Revolution**" - during cold war it was not possible to change "blocks" at will and insert a pro-western country deep into the eastern block but the suppression of revolt should have been much more subtle! It was probably a more wrong revolt than was also wrong it's suppression...

● (right and wrong simultaneously)

● 1938-11-09 Kristallnacht pogrom, when people spontaneously revenged a second murder of a German diplomat by jews on that year and also all previous years of economy oppression, when jews instigated an inflation, impoverished people and bought most of the country, and when World Jews declared Economic War against Germany since 1933...

Kristallnacht was stopped by Nazis on the following day, as is witnessed by a contemporary article in jewish NYT... But harming jewish middle class of local merchants was mis-directed and it did not punish those real Globalist and Oligarch culprits of most of previous wrong-doing... But if an ethnic engages collectively united in wrong-doing, it deserves a collective counter-action... But this violent action brought violent consequences and it's always better to solve things well-considered and without chaotic riots harming ingenuous with the wicked together...

(09-11 on 2001 was used by the Jews possibly as a swapped 11-09 Kristallnacht, among other reasons...?)

● 1989-11-09 Fall of Berlin Wall celebrated as "World Freedom Day" in USA - but fall of Eastern Block brought totalitarian oppression in the West, when they did not need to compete with the Socialism any more... Consider, that Vaccine Harm and Autism started to accelerate since 1989... Consider the wrong-doing of jewish-owned Western MSM FakeNews and Propaganda Channels accelerated since 2001... This is among consequences of Fall of Eastern Block, when they lost a Moral Competitor...

Cultural interventions are often counter-productive

● 11-12 Birthday of Sun Yat-sen (american-educated Chinese activist who overthrew Chinese empire in 1911) celebrated by both China and Taiwan - "In 1923 he invited representatives of the Communist International to Canton to re-organize his party and formed a brittle alliance with the Chinese Communist Party"... -- Is it any better in China now than under Emperors' rule?

● 11-12 Josaphat Kuntsevych - a Polish-Lithuanian monk and archbishop a victim of angry mob after Union of Brest after decision of decision of the Ruthenian Orthodox Church to break relations with the Eastern Orthodox Church and to enter into communion with and place itself under the authority of the Pope of Rome - people probably disliked their Church being stolen in this Cultural Invasion? Thus as an agent of foreign power and a cultural traitor of his people he ordered arrest of favourite priest of the people "who was clandestinely holding Orthodox services" and so the people consequently revenged... a wrong man to canonize...

● 11-12 Margarito Flores Garcia - priest shot by local authorities who before his arrival had already killed every other priest located in the town in 1927... That was wrong Communist-like de-christianization of formerly and consequently catholic land during or after a civil war called "Mexican revolution"... But it was probably not much wise of that priest to arrive into such destination...

Gender-equality feast and woman politics interference are wrong

- 11-25 "International Day for the Elimination of Violence against Women" - "Generation Equality" is wrong lie but some or most of violence is wrong too... It celebrates woman political meddling and "symbols of both popular and feminist resistance" - feminists are wrong but political martyrs are worth remembering... (And does it mention [Mirabal sisters](#) on the feast of [Saint Catherine](#) just in order not to mention that Catherine as a good model for women?)
- 1960-11-25 "The [Mirabal sisters](#) of the [Dominican Republic](#) were assassinated" - but [Dominican sisters](#) should not engage in politics...
(It's wrong if women engage in politic struggle and demonstrations like recent (2017-2019) [pussy-hat marches](#) in USA - because women should be dealt with courtesy and protection but they should not abuse this privilege and do wrong or insist on absurd requests while not being accountable appropriately due to their woman privilege of societal protection... And women often see things distorted and their requests are often wrong, more so if they are marred in hystery... Most notably recent anti-Trump and anti-[Kavanaugh](#) hysterical protests... In [Kavanaugh](#) case the hysterical women demonstrated "Believe survivors" defending an [obvious liar](#) and political smear figure and [not one](#). ([Kavanaugh](#) was [most probably serious and innocent](#)...) No we cannot believe women "survivors" of rape if they come with accusation long after the former Love was broken because women so often lie and try to guilefully revenge on former lover... When woman claims being raped let her come immediately while it can be proved and not after long time when the original love was voluntary but later spoiled and the woman may be revenging unfairly... The "Consent" may be implied from Ethology and we should not allow to spoil our Love and Customs by hysterical feminists...)
(Also consider that "woman privilege of societal protection" sometimes implies also a protection from their own folly... Women should be cherished and protected since they are precious...)
- 11-25 [Catherine of Alexandria](#) - while she may have been actually righteous and eloquent and being "a paragon for young women emphasizing her model of virginity and 'wifely chastity'" - beside her scholarship, but consider that her actions were fatal for hundreds of other people although not by her direct guilt...
- 11-25 [James Huntington](#) - founder of [Order of the Holy Cross](#) - that is probably a good order but why is there a "deputy bishop visitor Rt Rev. [Ann Tottenham](#)" of Canadian church ? See [1Tim2:12](#) scriptural argument and see decadent Swedish church where does it lead in consequences...

- 11-26 [Isaac Watts](#) - "hymn writer, theologian, and logician"
- 11-26 is Orthodox 11-13 - Saint [John Chrysostom](#) - Archbishop of Constantinople and one of the [Three Holy Hierarchs](#) of Eastern Orthodox Church "known for his preaching and public speaking and for his denunciation of abuse of authority by both ecclesiastical and political leaders"
- 11-26 [Conrad of Constance](#) - German bishop : "avoided becoming enmeshed in the politics of the day and reserved his energies for his episcopal duties"... "founded a number of churches ... and a hospital" and was "role model for courage"...
(While State should support it's Churches because they are beneficiary for population spiritual well-being (or at least for a part of that population that is not spiritually-ignorant) but the Ecclesia should avoid engaging in earthly political struggles... That is a right model of "Separation of Church and State" but not the neglect of Churches from the State or even enmity as presented recently by some anti-christians...)

- 2016-11-27 was First **Advent Sunday** - start of **Advent**... Why did you let it be converted to a month-long feast of Consumerism?
- 11-27 Our Lady of the **Miraculous Medal** - a Talisman with Marian opinions of **Catherine Laboure** from a vision induced by contemporary mistaken symbolism - Woman with Twelve Stars in Rev12 is not a Virgin Mary but Europe... (The flames and sword on back side are not much good from symbolic point of view...)
- 11-27 **Vergilius of Salzburg** - abbot and bishop of Salzburg and an early astronomer who was probably right... (One of early accounts of knowledge of spherical Earth as was already known to Greeks before that...) But his defense of another priest's sentence "Baptizo te in nomine patria et filia et spiritu sancta" is curious foreboding or omen of nazi deformation of church teachings? While we should have "filia" of "patria" (love of fatherland) but we are not ecclesiastically baptized in the name of homeland...
- 11-27 **Maaveerar Naal** celebration in Sri Lanka - the celebration may be possibly wrong (rather it isn't so much wrong) but it's violent suppression by government forces is even worse... **LTTE** was a "guerilla" defending it's own people against grave oppression and former pogroms and they were not "terrorists" and there is an important difference between that which many wrong world powers fail to recognize... (Like in EU calling Afghan guerilla defenders of their homeland "terrorists" if they attack occupation army is unjust similar to as Nazi also called guerilla like **Heydrich assassins** as "terrorists"...) But to **Tamil People** : rather use more calm struggles to gain fair conditions because violence more often brings counter-violence... (It is a question hard to answer who is more right or wrong in this case and from whose perspective...)
- 11-27 **Naval Infantry Day** (Russia)
- 1895-11-27 **Nobel Prize** was established - **Nobel Prize** for peace has been irreversibly stained by Obama, Roosevelt, Churchill and other war criminals receiving it (and by an attempt to give it to ISIS terrorists of White Helmets) - while physics **Nobel Prize** was stained by **WMAP** team liars (who claimed they measured Universe being flat by measuring three angles of triangle - one here and two others in microwave background - which is obvious lie and not a mere blunder...) and other blunders like claims of **Higgs Boson** being related to matter's mass... (Do you really mean that the extremely rare short-lived and unstable **Higgs Boson** is cause of matter's mass which is extremely stable omnipresent and persistent?) ... It is a "peer-review" Prize often given by one blunderers to others... Of cause there are good and bad exceptions...

- 12-03 "**United Nations' International Day of Persons with Disabilities**" - promoting falsehoods of "Equality" and wrongdoing of "Inclusiveness" which leads to disable normal people to the level of the naturally disabled... We are not Equal. And "Inclusive Education" which debases level of education of the majority in the name of "Inclusiveness" of the disabled and un-educatable is wrong treason against us The People... There should be special schools for elite students in order not to brake them to the level of the normal people and special schools for students with learning disabilities in order not to brake the normal people to the level of the disabled... Freedom of choice and Freedom of personal Evolution of All and not only of the "Disabled"... In last years 2018 and 2019 these UN promote "empowering and equality and inclusiveness and leadership" - which "equality" is false and "inclusiveness" is harming the majority but "empowering and leadership" (quotas for disabled people in leadership positions?) are outright dangerous treason... (various confused items)

- 12-10 **Human Rights Day** - often the "Human Rights" are misused for various wrong-doing (migration, diversity, decadence, spoiled child care in the name of "protection" of children)... Nation Rights should stay above Human Rights since "Nation" is an eternal living organism while Humans are just it's contemporary representants...
- 12-10 "**Translation of the Holy House of Loreto**" and "Our Lady of Loreto" - with an obviously false legend of angels transporting the house and more probable story of an "Angelos" medieval family transporting it by sea... a patron saint of air travellers and pilots it is therefore illogically... You collectively travel too much and too much aviation is a burden for an environment due to high-latitude contrails... And Virgin Mary was not black...
- 12-10 **Thomas Merton** - "an American **Trappist** monk, writer, theologian, mystic, poet, social activist, and scholar of comparative religion" - was most probably righteous... (And very probably a martyr of CIA hyenas...) Some Trappists' rules are right but their speech rules seem too strict and wrong to me... "According to Saint Benedict, speech disturbs a disciple's quietude and receptivity, and may tempt one to exercise one's own will instead of the will of God" - what if the "will of God" is that you exercise your own will to the better of the world freely...? Too much self-denial and blind obedience makes you more like a dumb robot and not a human being... What is "too much" ?
- 12-10 **Karl Barth** of "**Confessing Church**" with his partially wrong "**Barmen Declaration**" and their partially wrong fight against an (also partially) wrong regime...
(If the declaration writes: "Jesus Christ is the only Lord of all aspects of personal life. There should be no other authority." - then ask: Mt22:20 "And he said unto them: Whose is this image and inscription?" - it's of the Nation and since Jesus does not exert authority in Bible over many earthly matters, then one cannot live with "no other authority", and claiming that "priestly authority" is "authority of Jesus" would be a wrong deception also... Some level of respect to earthly authority is needed while we should not be dumb slaves of any authority including religious one and obviously of the political ones neither...)

John of the Cross - wrong Converso deforms of Discalced Carmelites, wrong "Non-discrimination" Discrimination in Education

- 12-14 **John of the Cross** - "Carmelite friar and priest of Converso (jews converted to christianity) origin, was a major figure of the Spanish Counter-Reformation"... He induced split of Discalced Carmelites together with **Teresa of Avila** (also of jewish Converso descent) whose wrong reforms were contrary to the ecclesial evolution of that time... (is "reform" in backward direction actually a "deform"? Not always but in this case it was because it returned to long since abandoned wrong rules...) ("Of the cross" he is named because of his proud vision looking onto crucified Christ from above - which is also wrong symbolically...)
- 12-14 **Nimatullah Kassab** of Lebanese Maronite Church was probably righteous... "severe on himself but a model of patience and forbearance to his fellow monks ... to seek ... solitude ... declined, saying that community life was the true challenge for a monk"
- 12-14 **Saint Spyridon** of Cyprus (date in Western Church) - Cyprus has unresolved divide with a Turkish occupation but what do the local people think of that? Among else Cyprus is a Den of Tax Evasion (wrongly called "Tax Heaven" but there is nothing heavenly about that!) for European countries...
- 2016-12-14 was FullMoon in December - **Sanghamitta** day - I don't know if it's wrong in Sri Lanka Buddhist context... **Sanghamitta** established a female Buddhist monastic order and planted there the oldest historical tree in the world in year 245 BC - an offshoot of Bodhi-Tree...
- 12-14 **Monkey Day**... Is Chimpanzee Human? It's more Human than Pig or Mouse but less human than African or Eurasian people... Do you understand Evolution? But if you fail as a Civilization the God will bring up another one from Africans or from Apes or even from Mouses but that would take progressively longer time and it would be a pity for us to fail to strive to be worth of survival as Spiritual Beings...
- 1960-12-14 "Convention against Discrimination in Education of UNESCO was adopted" - a partially wrong convention with internal controversy - while it ensures free choice of private schools which is right but it combats racial segregation in education which is wrong because some ethnics are hardly educatable in a way needed for other ethnics and it is a burden on more developed ones to be kept on a level affordable by the less developed ones... How can it simultaneously "combat ... cultural or religious assimilation ... and racial segregation in the field of education" if these are absolute contraries?! Assimilation including racial assimilation is wrong - it brings a demise of an Ethnic... It is also a "discrimination" to be denied education among people of same ethnic or race and level... Slavery was very wrong but "Affirmative action" leads to even worse ends... "Affirmative action" is a Treason... And while originally by the **Kennedy** it meant "employees are treated fairly during employment without regard to their race, creed, color, or national origin" but today it means an exact opposite with it's giving advantage to people of (allegedly?) inferior races... (cite: "disadvantaged groups that have previously suffered discrimination")... So it is actually a racism turned to wrong direction and thereby a Treason... And We all should give preference to people of Our national origin against Foreigners in employment - that is brotherly solidarity and national survival strategy...
- 1940-12-14 "**Plutonium** (specifically Pu-238) was first isolated at Berkeley California" - does it serve anything good? (This one isotope is used in radioisotope batteries and not in bombs... Other isotopes of Pu are far worse...)

Remarks

In January 2012 I've written a new "Evangelium" on cards (it was naive and somehow confused and finally on April 2012 I had an Idea or a "voice from behind" thinking: "Burn it!". I didn't obey but stopped continuing writing it... Some time later I've burnt at least the worse half of it... Do not cite it if you find it some day, it was partially naive and confused...) and I've been urged strongly to bring it to Prague to someone, and I've been doing some Parables (Prophecies?) meanwhile. Twice came a medical ambulance (when called by my relatives) to inspect me and they've left considering me "Normal", but then I've got a crazy idea to call a police on myself by performing a one-man-riot, they came and locked me in a Sanatorium. There on 2012-02-24 I had a strong Idea (from Astral or Spiritual world) that I AM a Lamb (it's written on one of the cards). It was three days before that "Lamb" sunspot started on far side of the Sun. They released me on 2012-02-29 and I continued with the Parables somehow... While walking on morning 2012-03-03 on the Charles Bridge taking photos of Statues, I've got an idea to take a Selfie, which I don't do any often. Trying to get a Prague Castle in behind, I snapped once, then seeing I had a hat, I snapped once more without the Hat. In both cases there was a golden cross of some statue stemming from my head. I would not mention it if it was not at the time of that Lamb sunspot... It seems God had this plan with me, and I'm not sure if I fulfilled it well, but I tried and said or written what people need to hear. (If you think I'm just "crazy" - no, it's instead your World ruled by their MSM Media which is Crazy.) If you don't want to admit or accept it this way, then I am just a Peter living in a region literally named "The Gate of Czech Paradise", while not being any Saint, and I'm just explaining, what I've observed, but for me it was an urge not to abandon that struggle, feeling it as a Responsibility... Doubt me wisely...

On winter 2014 I've solved a problem of stability in "Einstein's Universe" (I've been given it as a gift while waking up after a month of struggle to solve it...) and an explanation of Gravity acceleration (it's a matter of scientific dispute, whether it's right... I've seen it in a dream sometimes back in 1986 while studying theory of relativity...) and on the day of Big Quadrature (exact cross position of planets that occurred first after almost 800 years) on 2014-04-24 I had an "Idea" to translate Biblical Names - because they didn't translate the names and only trans-literated them and then you do not recognize it's not a History but a Parable and Archetypes. (I self-learned Hebrew starting from 1994 in order to find some hidden code in Bible, but then I've given up thinking there are only Images and Parables... Then I've learned Hebrew much better while translating Bible in 2014-2018 and while confirming quotes from evil Talmud in 2019...) Until 2018 I've been translating Bible from Hebrew to Czech (about 1/3 of Bible from Genesis to Kings, that part which was whole written as a Parable in Babylon and which encodes the Knowledge in Names) and writing about various things including Armageddon, which was the war in Syria (Aram) (and possibly contemporaneous conflict in Ukraine?), and in 2019 writing some follow-up texts, among else solving the massonic Tarot Plan and the "Shoah" Falsehood. I'm an intensive Amateur in Solar Physics since 2006, investigating influence of Planets onto Sun, while working as a Medical Software programmer and being an intensive photographer (a photographer strives to find, from where are the things most beautiful or interesting and it teaches one to Watch and to see the Beauty...).

Technical remark

For detecting the "sunspots" I use a combination of "quicklook" magnetograms and intensitygrams 2048x2048 from NASA SDO "browse" site with 6-hour or 3-hour stepping daily from 01:00, a time schedule from original SOHO EIT images. With average value 0.788 on HMIIF intensitygram (continuum) jpeg the sunspot is considered below level 0.625, and it's sometimes in remarks above noted as "Jpeg sources".

(For those interested in verifying my work, I'll place videos built from these Jpegs in <http://pialpha.cz/Sun/SC25/Mix> (cca 1.5 Gb) and I can somewhere upload the Jpegs also (cca 7 Gb)... It's not trivial to see one-pixel sunspots when they're not marked, this "Mix" is better than original jpegs for verification and I discourage multiple people bulk-downloading original jpegs from NASA or JSOC, while you can also, but not all of you...! Scientists need their servers not congested by superfluous traffic...)

Then to confirm it, I've downloaded FITS intensitygrams (1024x1024 or 2048x2048) in 3-hour stepping daily from 00:00 and flat-fielded them manually by averaging 7 neighbouring intensitygrams, then excluding the pixels above or below 5% from the average and averaging the rest again. This way a smooth picture without sunspots and noise is retrieved and it is subtracted from an intensitygram. The sunspot is then considered a pixel below level -5500 on these flat-fielded HMI intensitygrams, when supported by a magnetogram field, and it's sometimes in remarks above noted as "Fits sources". Occasionally some Sunspot is so weak that it is missing in either one of these and some or most missing in "Fits sources" were excluded from the list...

(The sunspot images used in document are "Mix" from 4096x4096 magnetogram and my flat-fielded intensitygram. The brown images on right are from SDO/AIA 171A extreme-ultra-violet (rescaled to same resolution) to verify there was some active region and it's not just a noise... These ultra-violet images have been verified by comparing them with Belgium Swap telescope, and the "Lamb" sunspot and following on 2012 have been verified from Heliophysical Observatory Debrecen in Hungary and Solar Science Observatory in Mitaka in Japan, so that it cannot be accused that NASA/SDO could generate them artificially instead of real observation...)

Conclusion 1

While on former years, sunspots seemed to appear in relation with planetary positions (Apparent Relations between Solar Activity and Solar Tides, Ching-Cheh Hung 2007 [[archived](#)]), or at random, this time their correspondence with times of Christian holidays and starts of Calendary and various other important events does not appear random at all and is hardly deniable...

At first in early 2019 I noticed the sunspot on Easter Monday 2018. Then I noticed the Jan Hus sunspot, a nice coincidence. But when I noticed sunspot on Christmas Eve 2019, it was clearly a message. (I was not initially hunting for all new sunspots and noticing just few was enough to consider the cycle started.) Then investigating other sunspots in 2019, I noticed other dates of calendar starts and various saints and it confirmed the message. Only when trying to publish this, I noted other works listing other sunspots, some unexpectedly early in 2016, and needed to fill the table more completely, which somehow diluted the boldness of the message about Darwin and Jan Hus, but not completely, as the position of sunspots on feasts remained consistent. Then using programming approach to search for all spots on SDO/HMIIF intensitygrams and matching them on SDO/HMIB magnetograms to detect their polarity revealed even more sunspots tiny enough to be overlooked during visual inspection. And finally I found the "Lamb" sunspot and Revelation in the start of SC25.

I understand, that atheistic community would not be pleased by this revelation, and neither some of the churches, both with their Pride about fictitious infallibility or exclusivity and other superstitions. Also the scientists just *believed* incorrect [blunders](#), while scorning at believers for backwardness.

Update 1

Some sunspots I initially rejected, because they were wrong: Either a high-latitude sunspot with old polarity of SC24, since at these phases of the old and new cycles, old sunspots should occur near the equator and new sunspots at high latitudes. It was not previously visibly obvious, where is an equator on the magnetogram, so small near-equatorial sunspots with new polarity were not included. There were also sunspots without a clear orientation, since sunspots should be oriented in east-west direction, but there were some oriented in north-south direction, where the polarity and the old or new cycle cannot be determined. Sunspots with only half of field are considered wrong.

But then it became obvious, that the wrong sunspots also have a meaning, since they mark the wrong dates and feasts in the calendary.

Still the listing excludes sunspots, that are obviously old polarity on right place, which are "*bussiness as usual*", and only sunspots of new cycle or sunspots with old polarity on high-latitudes in place of new ones are listed...

It became obvious, that by this way, some movements were judged as being wrong and it is a righteous judgement, despite some would not like that, because sometimes it is not "politically correct", but your political correctness is just a poison, that spoils the society.
